\$21,858.00  
\$22,898.90  
\$24,950.00

**Recommended Quote or Bid:**

G. L. Contracting \$21,548.40

**General Information:**

This project is for the installation of two additional storm sewer structures and curb at 7032 Wexford Road at the end of the cul-de-sac. There is significant grade change from Down Road along Wexford Road towards 7032 Wexford Road. The resident at 7032 Wexford Road experiences storm water run-off that is greater than the current inlet capacity of the storm sewer. The overflow of the storm water travels through the front yard and at times has washed out the landscaping rock along the south side of the house. This issue has been worse during the fall when leaves fall and partially block the storm sewer inlet. The project is scheduled to be completed prior to winter freeze up.

This project will be funded by the Storm Sewer Utility Fund. Staff recommends awarding the project to G.L. Contracting.
