Subject: West Shore Drive Pathway Expansion Proposal

Action Requested:
The Engineering Department is requesting the Park Board's review and comment on an alternative pathway option which is the resident neighbors' response to the Edina Transportation Commission's proposal to upgrade West Shore Drive's secondary bicycle route between 64th and 66th Streets.

Information / Background:
The Edina Engineering Department conducted an open house meeting on November 7, 2012 to receive input from the neighborhood on a proposal to develop a separate dedicated bicycle route adjacent to Rosland Park's pathway (see Option A).

The neighbors suggested an alternative as shown in Option B to instead simply widen the existing asphalt park path to 15 feet.

The Park Board is asked to provide feedback to the City Council on the proposed Option B. The City Council will consider both options at their December 11, 2012 Public Hearing at City Hall.
