D2 Services
TCIC Inc.

Amount of Quote or Bid:

\$28,515.00
\$29,024.00

Recommended Quote or Bid:

D2 Services

General Information:

SCADA is the monitoring and communication system for our water and sewer systems. It allows the system to alert our employees when there is a problem and allows remote monitoring and data collection. SCADA is crucial to Public Works staff to provide effective and valued public service to our residents as outlined in the City of Edina's mission statement. The technology of the existing radios is outdated and the units are not repairable. However, they will be kept in inventory to provide backup in case of radio failure until all three legs of the SCADA telemetry can be replaced. It will cost an additional \$12,333 to hire D2 Services for programming & installation. The total cost is \$40,484 compared to \$49,000 in the CIP.
