\$29,800.00
\$48,058.50

Recommended Quote or Bid:

Sir Lines A Lot Line Striping Company \$28,930.00

General Information:

The Traffic Safety Committee, Edina Transportation Committee and ultimately the City Council directed the installation of five enhanced rapid flashing beacon crosswalks in the 50th and France business district. The Edina Public Works Department recommends that the installation of these signals be in conjunction with new thermoplastic pavement markings. We received four quotes and have already purchased the materials to install. Due to the location and need for a quick turnaround we have recommended that the installation be done with the bigger equipment that these contractors have to grind and install the pavement markings.

The funding for the installation is paid for with the Pedestrian and Cyclist Safety (PACS) Fund.
