Subject: Authorize Agreement With HealthEMS

Information

Action Requested:

Authorize 5-Year Agreement With HealthEMS Software License

Information / Background:

HealthEMS provides the software functionality of our electronic patient care reporting system. All patient encounters during our ambulance calls are recorded through electronic documentation. This software interfaces with hospitals, our third party billing company, dispatch CAD system, patient monitoring equipment, and State reporting agencies. This capability is critical to our mission and provides significant efficiencies in our EMS operations.

If approved, the attached agreement would extend our current relationship with HealthEMS through December 31, 2020. This request is to go from the traditional 3-year to a 5-year agreement. We are anticipating an annual savings of approximately \$1,100 with the 5-year agreement.

Additional Information / Background:

2.2.2 Live Assistance Application Support provided by Solution Center Specialists is available to supplement Self Help Application Support. Physio-Control's Solution Center is staffed during prime Customer business hours, Monday – Friday, 7AM – 6PM CT, excluding major holidays. During "non-prime" hours, 6PM - 7AM CT Monday – Thursday, and 6PM CT on Friday through 7AM CT the following Monday, and on major holidays, inquiries regarding system availability are supported live by Physio-Control technical staff. Support tickets started outside of prime Solution Center hours will be addressed the next business day.

2.3 Data Center Services.

2.3.1 System Maintenance. Physio-Control will provide software updates, upgrades, and enhancements at the same time as generally available to other licensees. Physio-Control is responsible for deploying upgrades and enhancements for Customer's use at no additional charge to Customer. Customer may not have access to the System during times of scheduled maintenance. Prior to providing any update, upgrade, or enhancement, Physio-Control shall have used commercially reasonable efforts to test such item to ensure that it functions properly and in conformance with all specifications and warranties.

2.3.2 Backups. Backups of hosted applications and data are performed on a nightly (incremental) and weekly (full) basis. Backups will be scheduled at times so as to provide minimal impact to Customer's business activity. Physio-Control will maintain at least one full backup copy until after the next backup is performed. Backup will be maintained on a rolling basis and Physio-Control will not be responsible for archiving more than the most recent full backup. Physio-Control will take commercially reasonable steps to maintain data integrity in any backup, but Physio-Control is not responsible for loss of data or data integrity so long as Physio-Control has performed the backup in a commercially reasonable manner.

2.3.3 System Access Level. Physio-Control is not responsible for loss of access to the Data Center for reasons that are beyond Physio-Control's reasonable control. With the exception for loss of access that is beyond Physio-Control's reasonable control, Physio-Control shall maintain a level of access to the Data Center (excluding periods of emergency maintenance) of 99.9% Access Availability ("**Access Availability**"), 24 hours a day, 7 days a week, including holidays. System Access Unavailable ("**System Access Unavailable**") is defined as the reported unscheduled inability of all subscribed users of Customer to access the Data Center and verification that the problem is within the Data Center. Total System Access Unavailable minutes are calculated by adding the period of time beginning when the Customer reports System Access Unavailable to Physio-Control's Solution Center and ending when Physio-Control's Solution Center corrects the unavailable status and closes the incident with the Customer. If the Customer does not initiate a Solution Center call, Physio-Control will not be obligated to issue a System Access Unavailable Credit ("**System Access Unavailable Credit**") for the System Access Unavailability. Physio-Control will compute any System Access Unavailability on a quarterly average basis and apply a System Access Unavailable Credit to the next Customer invoice in the event that the stated Access Availability commitment was not met. This occurs on a pro-rated basis limited to the maximum of the total invoice charges based on the total billing period. System Access Unavailable Credits will not be given for events occurring during any period in which the Customer's account has an undisputed past due balance or the Customer is otherwise in breach of Agreement. The System Access Unavailable Credit will be calculated according to the following schedule:

99.9% - 100%	Covered under Agreement
99.5% - 99.89%	(1) day credit
98.5% - 99.49%	(2) days credit

Customer is required to complete Exhibit T in order for Physio-Control to correctly identify tax status.

If a certificate of exemption or similar document or proceeding is to be made in order to exempt the sale from sales or use tax liability, Customer will obtain and purchase such certificate, document or proceeding.

Undisputed amounts not paid when due will bear interest at the rate of 1.5% per annum on the unpaid balance each month, or such lesser rate of interest as shall be the maximum amount chargeable with respect to this account under the law in effect in the state of Customer's location.
