## 2017 Parklawn Avenue Reconstruction (France Avenue to W. 76<sup>th</sup> Street)

Dear Resident:

Parklawn Avenue from France Avenue to W. 76<sup>th</sup> Street is scheduled for reconstruction in 2017. See the attached map identifying the project area.

We would like your input regarding multi-modal traffic on Parklawn Avenue – multi-modal refers to a roadway system that is designed to safely accommodate all users. Now is the perfect time to identify and evaluate areas where we can make improvements to promote safe walking, bicycling and driving. Reconstruction gives us the opportunity to address concerns.

Your responses will help us design a project that reflects your neighborhood needs balanced with design elements from the City's strategic planning documents such as the Comprehensive Plan, the Sidewalk Facilities Map, Living Streets Plan, and the Active Routes to School Plan.

Your input is important to us! Please take the survey within the next 30 days. To complete the survey online, visit <https://www.surveymonkey.com/r/SYQFX6Z>. Completing the survey should only take about 15 minutes. Please complete one survey per household and include as much information as you can regarding safety concerns. If you would prefer a paper copy of the survey, please call 952-826-0449 and Engineering Specialist Sharon Allison will mail one to you. We will present the survey results at a future open house.

If you have any questions, please contact me at 952-826-0443 or [cschulze@EdinaMN.gov](mailto:cschulze@EdinaMN.gov).

Sincerely,

Carter Schulze, PE  
Assistant City Engineer
