LUMINAIRE OPTIONS

**CITY STANDARD LIGHT POLE
WITH ARLINGTON LANTERN
LUMINAIRE OPTION**

- This is a City standard light pole. There is no other option.
- The luminaire on top of the pole is optional. City standard luminaires are shown at the right.
- All City standard luminaires minimize upward light and lighting pollution.

PLAN VIEW

- The lighting system proposed on 54th Street will place one light pole on the north side of the intersections.
- The lighting system will not provide security lighting levels. Security lighting levels are not typical within the City and would require a maximum pole spacing of approximately 120 feet.
- Existing cobra head lights mounted on the utility poles along the south side of 54th Street will be removed.
