## Birchcrest B Neighborhood Roadway Improvements

Dear Resident:

### Project Schedule

Remember, on-street parking during reconstruction is not allowed in areas where crews are working.

This week, crews completed installation of all of driveway aprons on the project except for those on Porter Lane. Crews also completed some irrigation and pet fence repairs, but a few still remain. Curbs and gutters were also completed for Birchcrest Drive, West 60th Street and Normandale Road.

Next week, crews are planning to pave the first layer of pavement on Birchcrest Drive, Normandale Road and the ends of West 60th Street.

CenterPoint crews will be in to move a gas main along Code Ave and to complete new services to the houses along Code between West 60th Street and Porter Lane.

Last week, a contractor was onsite to complete hydroseeding. This work was not completed to the City of Edina's specifications and therefore will need to be redone. I have fielded several complaints on the issue of topsoil and hydroseeding. These issues are in the process of being corrected. If your property was hydroseeded, you can expect it to be reworked and reseeded properly in a more professional manner.

Remember to routinely check your front door for time-sensitive notices. All schedules are weather-dependent and are subject to change.

### Communications

Please contact me if you have any questions or comments regarding this project. You can reach me at 952-826-0448 or [dnorthenscold@EdinaMN.gov](mailto:dnorthenscold@EdinaMN.gov). For more information about emergencies, non-emergencies, site safety or what to do when you have special events or home improvement projects planned, visit [www.EdinaMN.gov/birchcrestb](http://www.EdinaMN.gov/birchcrestb).

Please encourage your neighbors to sign up for City Extra, as this will be our primary means of communication throughout the project. Visit [www.EdinaMN.gov/CityExtra](http://www.EdinaMN.gov/CityExtra) for more information.

The City of Edina and Palda & Sons, Inc. thank you for your patience and cooperation throughout the project.

Sincerely,  
Derek Northenscold  
Engineering Technician
