## Countryside H Neighborhood Roadway Improvements

Dear Resident:

### Private Utility Reconstruction Schedule:

- CenterPoint Energy has finished work in the neighborhood. Restoration in areas that are affected by the street reconstruction will be completed later this summer as part of the project.
- Xcel Energy is in the process of installing new wiring to street lights. Street lights in Phase I are planned to be replaced in the same locations.

### Project Schedule:

#### **Phase I** (includes Olinger Circle, Sun Road and Amy Drive)

- Crews began restoration of disturbed lawns last week and will continue next week. Below is a picture of what the restoration will look like. The contractor will maintain the hydroseeded areas for 90 days after installation, which includes watering and mowing. While the contractor is solely responsible for developing the seeded areas into established turf, your assistance during this time will help to establish your yard more quickly. You are welcome to assist with the turf establishment by watering, mowing, and weeding if you desire to maintain the developing turf according to your individual preferences.

- Boulevards, irrigation systems and pet fences will be repaired during the restoration phase of the project which will take place once work is substantially completed in a few weeks.

#### **Phase 2** (includes Arbour, Stuart and Benton Avenues, and Grove Street east of Arbour Avenue)

- Crews began replacing portions of the sanitary sewer this week.
- Grove Street between Tracy Avenue and Stuart Avenue will be closed Monday, July 6 to Wednesday, July 8 to replace sanitary sewers.
- Crews will work on sidewalks, curbs and concrete driveways for the next two weeks. You may not have access to your driveways and limited street access for short periods of time. The contractor will distribute notices to affected residents.

---

### ENGINEERING DEPARTMENT

7450 Metro Boulevard • Edina, Minnesota 55439

**Phase 3** (includes Merold Drive, Wycliff Road, and Grove Street west of Arbour Avenue)

- Wednesday, July 1, crews began roadway pavement reclamation on Wycliffe Road, Grove Street and Merold Dive. This is the process of grinding the pavement to produce a gravel product that will be used as a recycled base of the new roadbed. Crews will follow the grinding machine to shape and compact the gravel in place. The roadway will be open during the reclamation processes, with isolated closures in areas where crews are working. Please use caution when driving through these areas. On-street parking will be restricted while crews reclaim as they need to grind up the entire roadway.

Remember to routinely check your front door for time-sensitive notices. All schedules are weather-dependent and subject to change.

**Communications:**

Please contact me if you have any questions or comments regarding this project. You can reach me at 952-826-0444 or [mmohamed@EdinaMN.gov](mailto:mmohamed@EdinaMN.gov). For more information about emergencies, non-emergencies and site safety, or what to do when you have special events or home improvement projects planned, visit [www.EdinaMN.gov/countryside\\_h](http://www.EdinaMN.gov/countryside_h).

Please encourage your neighbors to sign up for City Extra, as this will be our primary means of communication throughout the project. Visit [www.EdinaMN.gov/CityExtra](http://www.EdinaMN.gov/CityExtra) for more information.

The City of Edina and Northwest Asphalt thank you in advance for your patience and cooperation throughout the project.

Regards,

Mohamed Mohamed
