**Ross Bintner**

**Transportation Planner**

**Mark Nolan**

**Engineering Coordinator**

**Sharon Allison**

**Assistant City Engineer**

**Patrick Wrase**

**Director of Engineering**

**Chad Millner**

## Why My Street?

- Streets that meet specific standards are subject to reconstruction.
- Priority is given to streets with the highest need based on watermain breaks, sanitary sewer deficiencies, storm sewer/drainage issues, and Pavement Condition Index.
- Reconstruction is usually more cost-effective in the long-term than patching or seal-coating.
- Streets are grouped together to help maximize the economics of scale for construction.

## **Anticipated 2016 Projects**

### **Neighborhood Reconstruction**

**Golf Terrace B**

**Strachauer Park A**

**Morningside A**

**White Oaks C**

### **Municipal State Aid (MSA) Reconstruction**

**Tracy Avenue – Benton to Valley View Road**

**Parklawn Avenue – France to 76th**

2017 Project Area  
Countryside G Neighborhood Roadway Reconstruction  
Improvement No: BA-427

# 2017 Project Overview – Normandale Park D Neighborhood

## Process

## Typical Timeline

July/August

Feasibility report and estimates provided

December/January

Public hearing

January-March

Plan preparation and bidding

April/May

Construction begins

October/November

Construction concludes

Spring

Warranty work

Summer/Fall

Final assessment hearing

## What is Included?

- Always included:
  - Roadway – replacing the entire roadbed
  - Curb and gutter – all or pieces
  - Utility upgrades
- Sometimes included:
  - Sump pump drainage system
  - Sidewalks
  - Streetlights
  - Traffic management
- Full project scope is based on the condition of the infrastructure and resident questionnaire responses

## Typical Utility Improvements

- New fire hydrants and gate valves
- Sanitary sewer spot repairs and replacement
- Storm sewer upgrades
  - Sump pump drain pipe in various locations

## Typical Roadway Improvements

- Curb and gutter
- New roadbed and pavement surface
