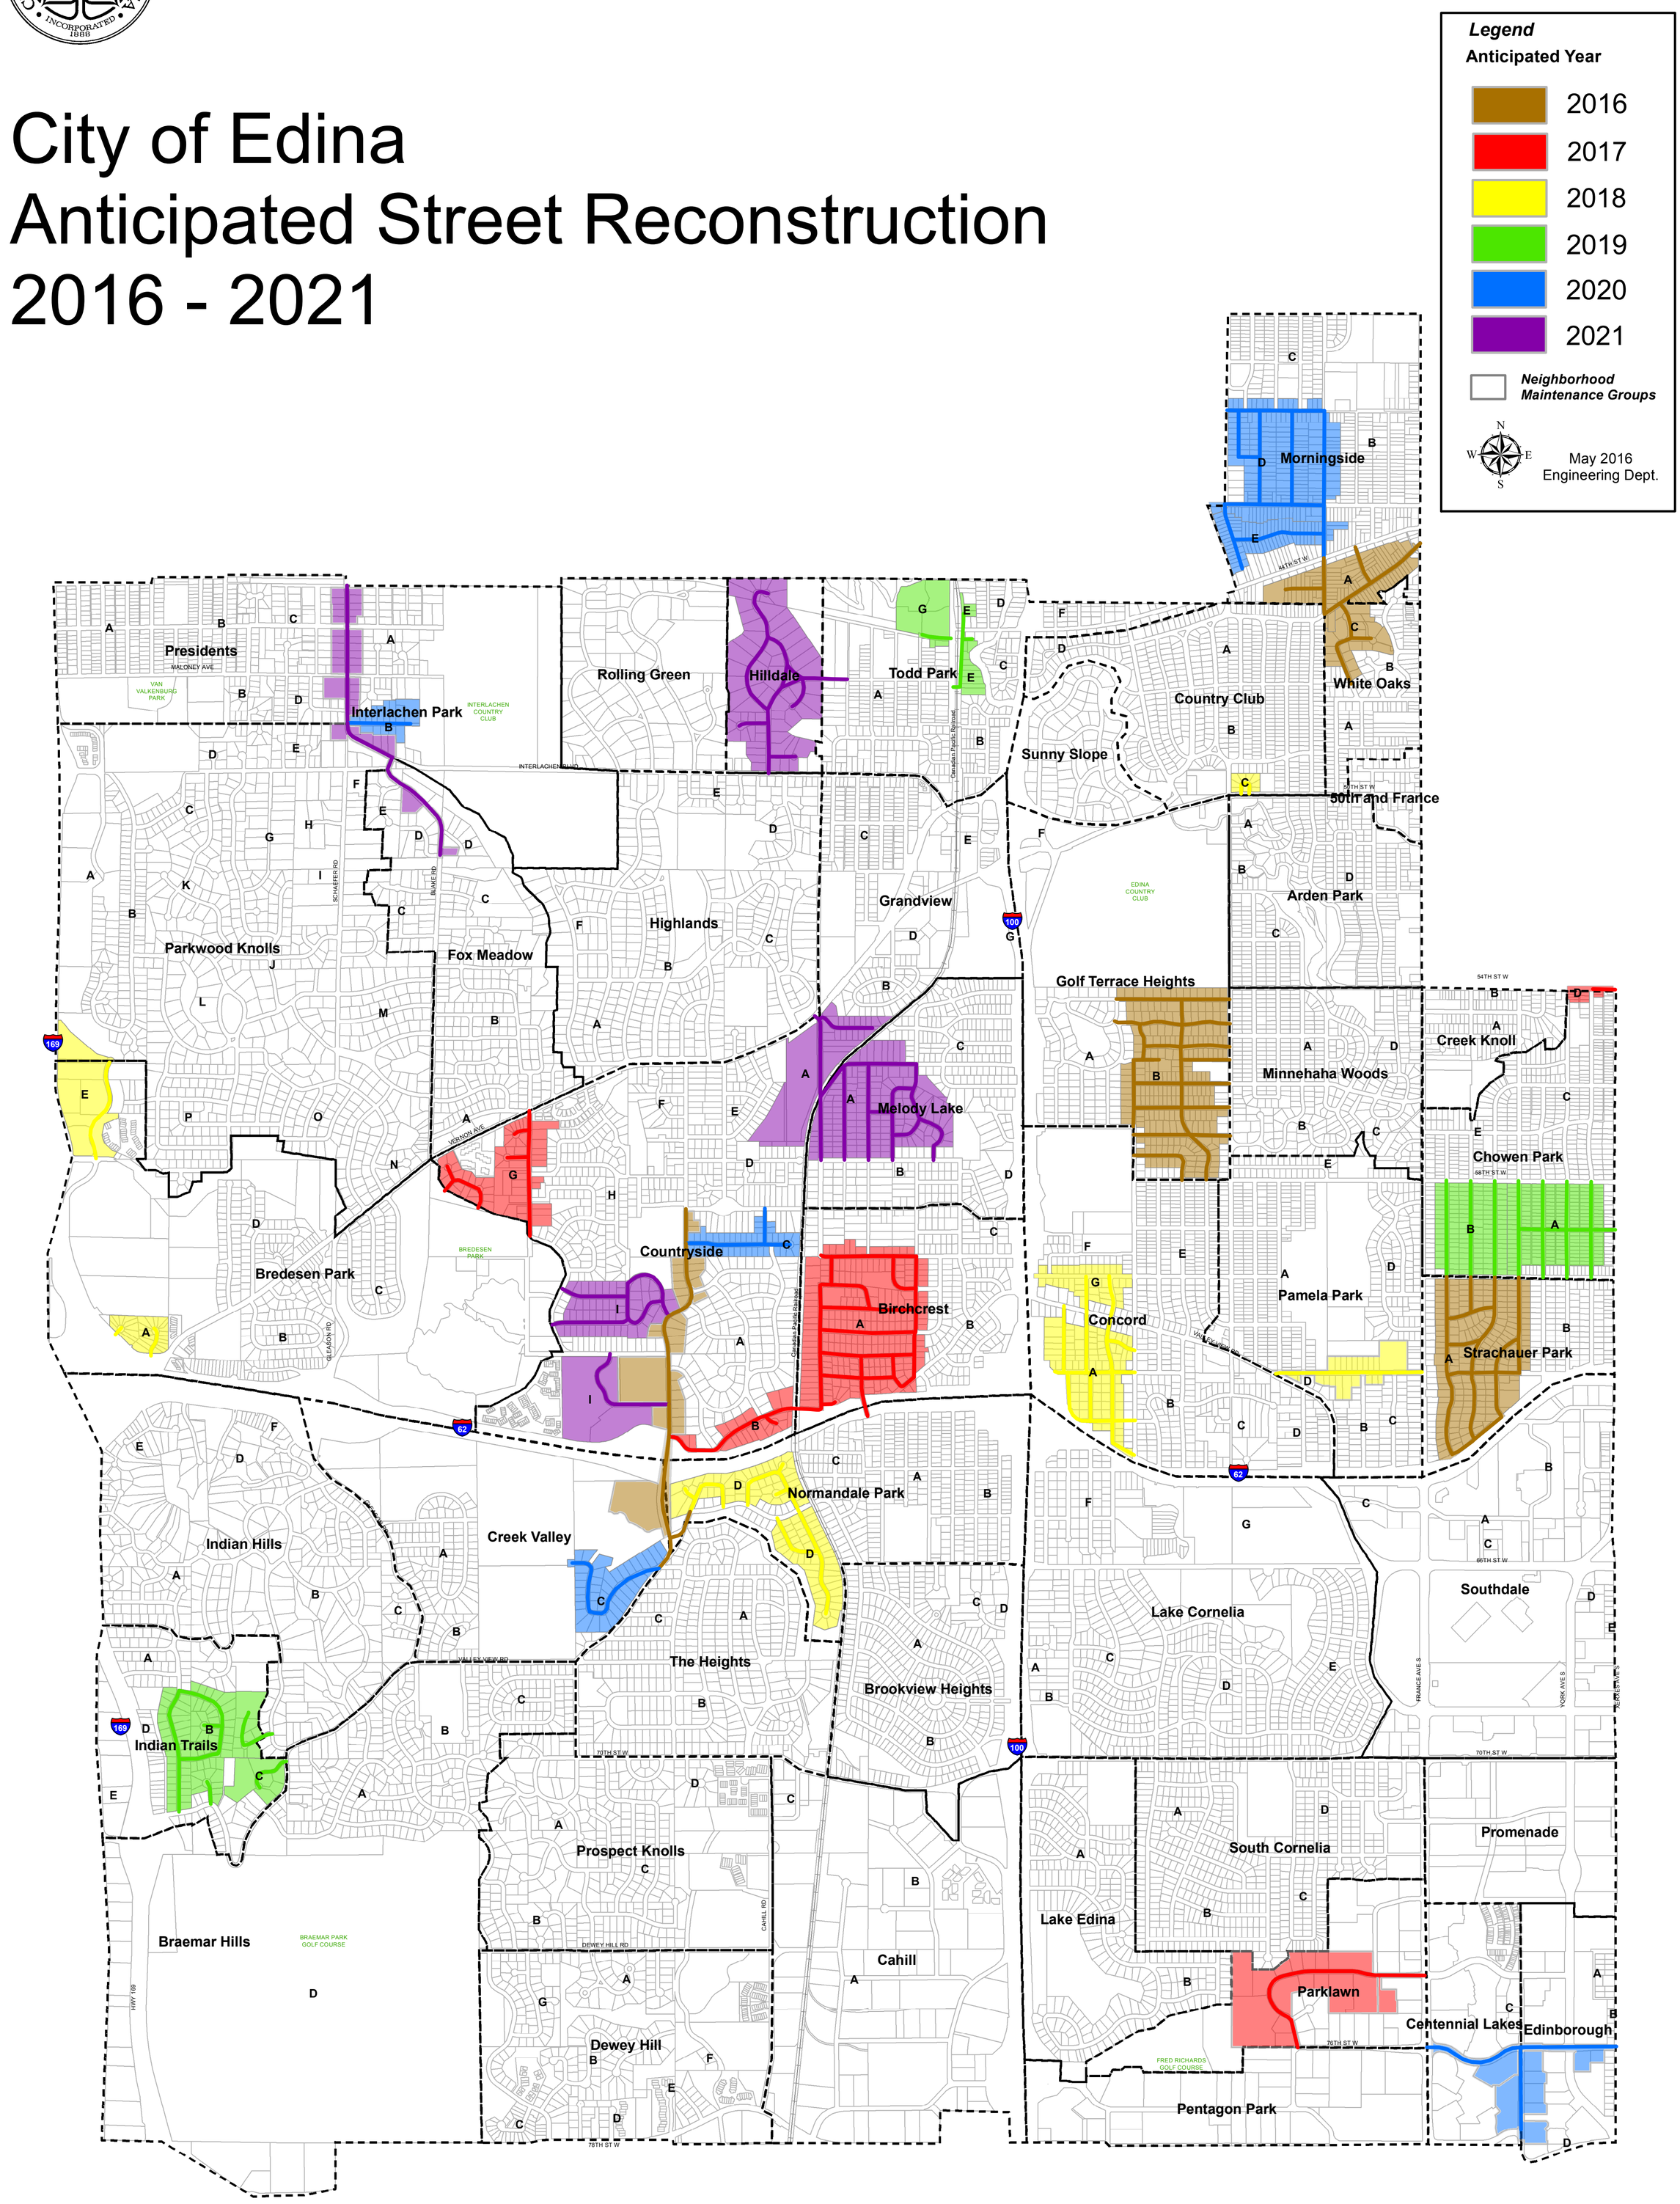
City of Edina
Anticipated Street Reconstruction
2016 - 2021



Note/Disclaimer

The dates shown on the map represent the anticipated years of reconstruction and are subject to change based on budgetary issues, adjacent projects, and other factors.
Not all bituminous roadways within the City are shown. If a road is not highlighted, then the potential reconstruction date is beyond the City's 5-year planning process.

The City of Edina's street improvement policy is to assess residents for a portion of the roadway reconstruction costs. Public utility improvements are paid for from the City's Utility Fund.

Extensive evaluations regarding the condition of the pavement, sanitary sewer, storm sewer, and watermain are used to set the priority of roadway improvements.
