

Tracy Avenue, Valley Lane, and Valley View Road Roundabout

May 10, 2016

Dear Resident:

This project is scheduled to begin this week. During construction the roundabout will be constructed in stages to maintain traffic flow on Tracy Avenue and Valley View Road, with the exception of the following Saturday's when the entire intersection will be closed to traffic:

- Saturday, August 6, 27 and October 1

Valley Lane will remain open to traffic until Monday, June 6. At that time, it will be closed to traffic to replace the box culvert that carries Nine Mile Creek. It will remain closed until August 27.

These timelines are weather dependent and therefore subject to change.

City extra emails will be the best way for us to keep you informed of the construction schedule and work activities that directly affect you such as driveway access, water shutoffs, etc. Please sign up for this service by going to our website, www.edinamn.gov, click 'For Residents,' and then 'City Extra.' Follow the directions to sign up. Under Engineering Projects, select Tracy Avenue, Valley Lane and Valley View Road Roundabout by check-marking the box. Scroll to the bottom and check the box that reads "I agree to THE MINNESOTA DATA PRACTICES ACT" and click 'Submit.' You will then be signed up to receive all emails that are sent out for this project. Emails before construction begins will be sporadic; after construction begins, weekly updates will typically be sent on Fridays.

If you do not have access to email, let Engineering Specialist Sharon Allison know at 952-826-0449, and she will mail you a copy of the weekly updates.

Safety is our No. 1 priority -- remind your children to stay away from construction sites, machinery, and stockpiled materials.

SEH's Aaron Kellas will be the City's on-site representative for this project. You can contact Aaron at 763-350-3436 or akellas@sehinc.com.

The City of Edina and Minger Construction thank you in advance for your patience and cooperation throughout the project!

Sincerely,

Chad A. Millner, PE
Director of Engineering
