## **Valley View Road Reconstruction Project**

Dear Resident:

### **Storm Sewer Construction**

The Sally Lane storm sewer placement continues towards Paiute Pass. The recent rain has delayed the completion by approximately one day. The remaining segments of pipe should be finished by Monday, June 1. Once the pipe is in place, the contractor will work to grade and pave Sally Lane. This should be completed no later than Wednesday, June 10.

### **Stage I (Valley View Road – Braemar Boulevard to Mark Terrace Drive)**

Stage I will begin Monday, June 1. Thru traffic will be detoured for the duration of stage I; however, access will be maintained for local traffic. Go to the project website for additional information about the detour and staging. Stage I is scheduled to be completed by Monday, July 20.

### **Special Events or Access Needs**

Please call me if you have any special events or access needs. The contractor will work with you as much as possible to accommodate your needs.
