

Bituminous Driveway Turnaround Form
West 70th Street (TH 100 to France Avenue) Reconstruction Project
City of Edina Contract No. ENG 10-3

The City has required the contractor to construct bituminous driveway turnarounds for residents that desire one. You will be required to pay for the construction of this added pavement to your driveway. The bid unit price from the contract is \$40 per square yard, and we anticipate a typical turnaround size will be 10-feet by 20-feet which is 22 square yards. This cost does not include additional items such as tree removal, relocating fixtures, relocating retaining walls, etc.

If you are interested and would like to discuss the possibility of adding a driveway turnaround to your property, please fill out the following form. It should be noted, that by filling out this form does not guarantee a turnaround will be constructed. This form is simply to get an understanding of whether or not you are interested and that you wish to pursue this matter further.

Please return this form in the attached stamped envelope to WSB & Associates, Inc. no later than November 30, 2010. If you are interested, someone from WSB or the City will be in contact you over the next few months to work out a design and an agreement about the cost.

- I am not interested in adding a driveway turnaround to my property.
- I am interested in learning more about adding a driveway turnaround to my property.
